

# TONY BERA

Unity Developer

Mumbai, IN 400078 | +91 9819521305 | [tonybera301@gmail.com](mailto:tonybera301@gmail.com) |  
LinkedIn: <https://www.linkedin.com/in/tony-b-bb070911a>

## Professional Summary

Unity & XR Developer with 5+ years of experience building VR training applications, real-time simulations, and immersive environments. Skilled in C#, Unity Engine, and performance optimization techniques. Proven ability to deliver scalable solutions, manage client requirements, and develop interactive 2D/3D experiences.

## Skills

|                             |                               |
|-----------------------------|-------------------------------|
| Mobile game development     | Level design                  |
| Unity engine expertise      | Asset management              |
| Networking and multiplayer  | Performance optimization      |
| Virtual reality development | Augmented reality development |

## Work History

- Unity Developer11/2024 to Current

Feast Software Pvt Ltd, Mumbai – Mumbai, India

  - Developing VR-based training applications for multiple industrial use cases
  - Designing interactive simulations to improve user learning and engagement
  - Implementing optimized interaction systems for XR environments
- Unity Game Developer06/2023 to 11/2024

Improvement Interactive – Remote

  - Built real-time simulation systems and immersive environments in Unity
  - Developed procedural terrain generation and object spawning systems
  - Optimized async workflows using UniTask and Addressables
  - Integrated WebSocket-based communication for real-time features
  - Collaborated with cross-functional teams to deliver high-quality projects
- Lead Unity Developer06/2022 to 04/2023

Eventcombo – Remote

  - Led development of a web-based metaverse platform
  - Implemented chat systems, player interactions, and social features

- Developed dynamic content systems (posters, link-based access)
- Enabled real-time communication including video call features
- Designed custom tools to streamline workflow and increase efficiency within the development process.

#### **Unity XR Developer**

05/2021 to 04/2022

##### **Cusmat Technologies Pvt Ltd – Remote**

- Developed AR/VR applications for training and simulation
- Translated client requirements into technical solutions
- Built mobile-based interactive tutorial applications
- Handled client communication and project delivery
- Worked closely with clients to gather requirements and translate them into technical specifications for implementation.

#### **Unity Game Developer Intern**

02/2021 to 05/2021

##### **Appzia Technologies Pvt Ltd – Pune, India**

- Developed 2D, 3D, and VR games in a fast-paced environment
- Performed testing and debugging to ensure smooth gameplay
- Contributed to multiple game projects and prototypes

### Education

---

#### **Bachelor of Technology : Computer Science**

03/2022

##### **Ajeenkya D.Y. Patil University - Pune, India**
